Notice Response

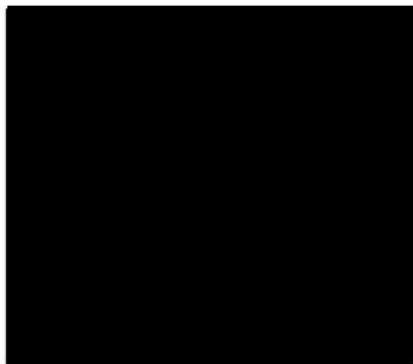

I have always felt and expressed publicly that we need to have our students return to in person learning (for those who wish to do so) as soon as legally possible. I have not been shy in making my voice extremely clear at every possible opportunity.

Unfortunately through a combination of constant shifting by the State of California, we were prevented from a full in person classroom setting until recently.

My comments made publicly from board meeting held on February 23, 2021.

"I would like to thank all that reached out concerning the topic. I too, was hoping/praying that the state would allow or give us something to return under our current agreement. However, I feel we are passed on relying on the state and we are at a point that we do ALL and Everything we can so that our kids return ASAP. Even if that means our K-6 return first and hopefully our secondary will follow thereafter. I am hoping we can work together with all parties to make this happen. Districts that surround us have returned to in person learning and we too must return to in person learning for our kids"
