

Response to Recall Petition

It's been my honor to work on behalf of Elk Grove Unified School District students and families as your School Board Member since 2014. I regret that people with ulterior motives are providing you with false information about me while distracting from the important work we have to do right now, and potentially forcing the district to pull approximately \$1.5 million away from educating students to fund a special election. The allegations against me are completely false. Most campaign contributions come from organizations that set money aside for that purpose because individuals do not often have those resources in their family budgets. There is nothing unusual about my campaign contributors. This is a continuation of the harassment I've endured for over a decade for speaking out against a local politician for his attacks on local women leaders. Individual school board members have no authority on their own; I'm one of seven individuals who jointly made difficult decisions in response to a global pandemic. I have always and will continue to put the interests of students first and to value parental input. I stand by my record of always acting in the best interest of students. Please contact me if you have any questions: (916) 244-2402.
